MARIE-LAURE TOURNIER FRANCE

Born in 1965, Marie-Laure Tournier lives and practices her art in France, in the Occitanie region near Toulouse. Inspired by great masters such as Monet, Renoir, and Pissarro, this artist embraces an impressionist style infused with modern and contemporary influences.

Her works invite us to savor the simple moments of life, fostering an emotional connection with the themes she explores.

Expressively using vibrant color palettes, she plays with light and shadow while harnessing the transparency of acrylics. Applied with broad strokes using both brushes and palette knives, her dynamic technique evokes nostalgia and warmth at times, and a lively energy at others. Her compositions consistently create an atmosphere that heightens emotional intensity.
